Third Grade – I. Phonemic Awareness, Word Recognition and Fluency Standard

Students in the primary grades learn to recognize and decode printed words, developing the skills that are the foundations for independent reading. They discover the alphabetic principle (sound-symbol match) and learn to use it in figuring out new words. They build a stock of sight words that helps them to read quickly and accurately with comprehension. By the end of third grade, they demonstrate fluent oral reading, varying their intonation and timing as appropriate for the text.

(1) Use letter-sound knowledge and structural analysis to decode words. (3) 	<ul style="list-style-type: none"> Rounding Up the Rhymes –(Teacher’s Guide to the Four Blocks Grades 1-3 – Patricia Cunningham, et al). As a book with lots of rhymes is read, students identify the rhyming words for the teacher to write on index cards for the pocket chart. Display them in rhyming pairs (right, night). Students identify the spelling patterns that are the same (-ight) and generate other words (bright) that fit that pattern to display in a column. Those with different spelling patterns are then discussed and analyzed (why, high; dear, here). Word wall - Five high frequency words are added each week. Words are in alphabetical order. Students read them, discuss syllables, phonics rules, patterns, etc. Word wall is a constant tool for support in reading and writing. Third Grade – II. Acquisition of Vocabulary Standard

Students acquire vocabulary through exposure to language-rich situations, such as reading books and other texts and conversing with adults and peers. They use context clues, as well as direct explanations provided by others, to gain new words. They learn to apply word analysis skills to build and extend their own vocabulary. As students progress through the grades, they become more proficient in applying their knowledge of words (origins, parts, relationships, meanings) to acquire specialized vocabulary that aids comprehension.

Use context clues to determine the meaning of new vocabulary. (A)

Contextual Understanding

- Determine the meaning of unknown words using a variety of context clues, including word, sentence and paragraph clues. (1)
- Use context clues to determine the meaning of homophones, homonyms and homographs. (2)

Read accurately high-frequency sight words. (B)

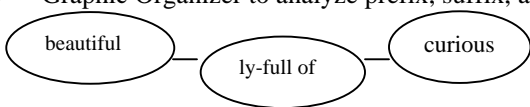

Conceptual Understanding

- Read accurately high-frequency sight words. (4)

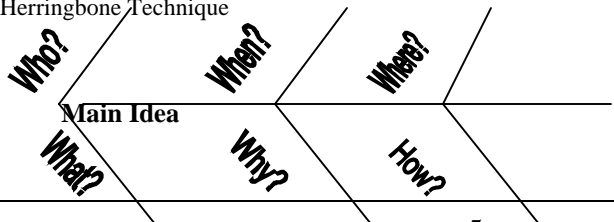

Apply structural analysis skills to build and extend vocabulary and to determine word meaning. (C)

Structural Understanding

- Apply knowledge of individual words in unknown compound words to determine their meanings. (5)
- Use knowledge of contractions and common abbreviations to identify whole words. (6)
- Apply knowledge of prefixes, including un-, re-, pre- and suffixes, including -er, -est, -ful and -less to determine meaning of words. (7)

- Using a short passage and highlighter, students mark words they are not familiar with and discuss the probable meaning based on context. Meaning can occasionally be verified with a dictionary.
- **Context Clues-** When encountering an unfamiliar word in a sentence or paragraph, students can draw on earlier reading and read ahead.
- To reinforce vocabulary, students can act out a skit; create card games and puzzles with words and definitions.
- Review Word Wall Words
(The Teacher's Guide to the Four Blocks Grades 1-3 – Patricia Cunningham, et. al)
- Guess the Covered Word is a cloze technique that helps students cross-check meaning, word length, and consonant clusters (Guess the Covered Word for Third Grade – Kohfeldt and Collier)
- “Chunk” unfamiliar words by looking for a sound part that is known. For example: can dle, re turn
- Graphic Organizer to analyze prefix, suffix, and root words

<p>Third Grade – III. Reading Process: Concepts of Print, Comprehension Strategies and Self-Monitoring Strategies Standard</p> <p>Students develop and learn to apply strategies, such as predicting and recalling, that help them to comprehend and interpret informational and literary texts. Reading and learning to read are problem-solving processes that require strategies for the reader to make sense of written language and remain engaged with texts. Beginners develop basic concepts about print (e.g., that print holds meaning) and how books work (e.g., text organization). As strategic readers, students learn to analyze and evaluate texts to demonstrate their understanding of text. Additionally, students learn to self-monitor their own comprehension by asking and answering questions about the text, self-correcting errors and assessing their own understanding. They apply these strategies effectively to assign and self-selected texts read in and out of the classroom.</p>

This can be done through letters written to the teacher. (<u>Guiding Readers and Writers Grades 3-6</u> – Fountas and Pinnell – chapter 10.) • Assessment: Assessing the Level of Text Reading The students should keep a list of books read. Such lists provide teachers with information such as, the amount of reading, level of difficulty, and type of genre. Third Grade — IV. Reading Applications: Informational, Technical and Persuasive Text Standard

Students gain information from reading for the purposes of learning about a subject, doing a job, making decisions and accomplishing a task. Students need to apply the reading process to various types of informational texts, including essays, magazines, newspapers, textbooks, instruction manuals, consumer and workplace documents, reference materials, multimedia and electronic resources. They learn to attend to text features, such as titles, subtitles and visual aids, to make predictions and build text knowledge. They learn to read diagrams, charts, graphs, maps and displays in text as sources of additional information. Students use their knowledge of text structure to organize content information, analyze it and draw inferences from it. Strategic readers learn to recognize arguments, bias, stereotyping and propaganda in informational text sources.

<p>Use text features and structures to organize content, draw conclusions and build text knowledge. (A)</p> <p>Ask clarifying questions concerning essential elements of informational text. Third Grade – V. Reading Applications: Literary Text Standard Students enhance their understanding of the human story by reading literary texts that represent a variety of authors, cultures and eras. They learn to apply the reading process to the various genres of literature, including fables, tales, short stories, novels, poetry and drama. They demonstrate their comprehension by describing and discussing the elements of literature (e.g., setting, character and plot), analyzing the author’s use of language (e.g., word choice and figurative language), comparing and contrasting texts, inferring theme and meaning and responding to text in critical and creative ways. Strategic readers learn to explain, analyze and critique literary text to achieve deep understanding.

Third Grade – VI. Writing Process Standard

Students' writing develops when they regularly engage in the major phases of the writing process. The writing process includes the phases of prewriting, drafting, revising and editing and publishing. They learn to plan their writing for different purposes and audiences. They learn to apply their writing skills in increasingly sophisticated ways to create and produce compositions that reflect effective word and grammatical choices. Students develop revision strategies to improve the content, organization and language of their writing. Students also develop editing skills to improve writing conventions.

Third Grade – VII. Writing Applications Standard

Students need to understand that various types of writing require different language, formatting and special vocabulary. Writing serves many purposes across the curriculum and takes various forms. Beginning writers learn about the various purposes of writing; they attempt and use a small range of familiar forms (e.g., letters). Developing writers are able to select text forms to suit purpose and audience. They can explain why some text forms are more suited to a purpose than others and begin to use content-specific vocabulary to achieve their communication goals. Proficient writers control effectively the language and structural features of a large repertoire of text forms. They deliberately choose vocabulary to enhance text and structure their writing according to audience and purpose.

<p>Write narrative accounts that develop character, setting and plot. Excerpts from these lessons can be found under the Research Standard. • Poetry contests can inspire students to write creatively and be published. One contest is a Celebration of Young Poets (www.poeticpower.com). • Students can create a poetry anthology of their poems by using “blank” books to copy poems written throughout the year. • Message boards also offer another way for students to communicate with the teacher and themselves. Cover a bulletin board with white paper and allow students to write messages on it (or use Post-It-Notes). • Expectations for producing informal writing for various purposes are delineated at all grades K-12 within the grade-level indicators. Teachers have many opportunities to observe students engaged in activities related to these skills. • Assessment-Literacy Portfolio • A portfolio is a <u>carefully selected</u> sample of the students writing. This may include a list of writing projects completed, selected writing from the genres, and self-reflections about growth as a writer and learner. Third Grade – VIII. Writing Conventions Standard

Students learn to master writing conventions through exposure to good models and opportunities for practice. Writing conventions include spelling, punctuation, grammar and other conventions associated with forms of written text. They learn the purpose of punctuation: to clarify sentence meaning and help readers know how writing might sound aloud. They develop and extend their understanding of the spelling system, using a range of strategies for spelling words correctly and using newly learned vocabulary in their writing. They grow more skillful at using the grammatical structures of English to effectively communicate ideas in writing and to express themselves.

(3) • Spell contractions, compounds and homonyms (e.g., hair and hare) correctly. (4) • Use correct spelling of words with common suffixes such as, -ion, -ment and -ly. (5) • Follow common spelling generalizations (e.g., consonant doubling, dropping e and changing y to i). (6) • Use resources to check spelling (e.g., a dictionary, spell check). (7) 	<ul style="list-style-type: none"> • Emphasis should be on learning how words work more than on memorizing a weekly spelling list. Study patterns, rules, exceptions, etc. • The “Buddy Study” is a systematic approach to spelling instruction following a 5 day plan (<u>Guiding Readers and Writers Grades 3-6</u> - Fountas and Pinnell). • “Pick 5” Spelling Words - have students select 5 misspelled words from their written work and replace 5 of their spelling words. Students use partners to give each other their “Pick 5” words.

Third Grade – X. Communication: Oral and Visual Standard

Students learn to communicate effectively through exposure to good models and opportunities for practice. By speaking, listening and providing and interpreting visual images, they learn to apply their communication skills in increasingly sophisticated ways. Students learn to deliver presentations that effectively convey information and persuade or entertain audiences. Proficient speakers control language and deliberately choose vocabulary to clarify their points and adjust their presentations according to audience and purpose.

Communication is used in all content areas and should be incorporated within the instruction and assessment of the content-specific standards and benchmarks.
